

# BETRAYAN M

FRONT-END DEVELOPER

## ABSTRACT

"Passionate Front-End developer dedicated to crafting user-centered digital experiences. I combine strong development principles with hands-on technical skills to create responsive, intuitive, and engaging web and mobile applications. My world revolves around code — I spend most of my time learning, building, and improving. While others socialize, I solve problems through logic and creativity. For me, coding isn't just a skill — it's a way of life."

## SKILLS

- **Teamwork:** Ability to work independently or collaboratively in teams.
- **core Python:** Experience with automation, building AI assistants.
- **core Java:** Object-Oriented Programming
- **Web Development:** HTML, CSS, JS(basic)-building responsive website's.
- **Prompt Engineering:** Skilled at crafting effective prompts for AI tools.

## PROJECT

- **Jarvis Assistant (Offline)** – A Python-based voice-controlled desktop assistant for automating basic computer tasks.
- **JarvisMK15(online)** -A interactive AI assistant that provides quick answers and visual learning, including 3D content online.
- **VISHWAS(Contract Forming App)** – A simple web app for farmers to create and manage digital contracts easily.
- **Fake Shutdown Detox** – Built a Flutter app that simulates phone shutdown for digital detox.
- **EDHUB** - A single platform for academics and campus services, simplifying access and communication.

## Internship

- full stack web development - stack queue Education.
- Skill Development Training – Bannari Amman Institute of Technology.
- Web Development Intern – Odugaatech Education Institue
- Python, Java, DSA - Online tutorial's.

## EDUCATION

AVS Engineering College, Salem — Anna University

B.E. – Computer Science & Engineering  
2022 – 20206 | GPA: 7.8/10.

## KEY ACHIEVEMENTS

- Selected Finalist **Smart India Hackathon (2024).**
- Attended **Codevolt'25 Hackathon** VIT-Chennai.
- Selected Finalist **HackXelerate'25 Hackathon** - KPR Coimbatore.
- Attended & Won Symposiums Participated and won in various college symposiums.
- Organized Department Symposiums & Events.

## MY AMBITION

- To continuously evolve as a developer and contribute to impactful projects that blend technology with creativity. My journey is all about going from 0 --> 1, then 1 --> 10, and eventually 10 --> 100 — continuously learning, improving, and evolving.
